

## MANAGED ANTI-VIRUS

### Total Endpoint Security

**What is worse than a virus? Time and money wasted recovering from one!**

Every minute counts in today's business. Stop wasting your valuable and scarce IT resource time and energy on the selection, testing, planning, deployment, updating, and reporting of your Anti-Virus software.

Pro-Multis Managed Anti-Virus service provides the skilled IT resources, domain expertise, centralized monitoring and management facilities, and proactive approach to ensuring the protection of your desktops and laptops against the ever-present threat of viruses, spam, and malware attacks.

### Key Features

#### Enterprise Class Solution

Encompassing more than just Anti-Virus, this solution supports full endpoint security.

#### Most Advanced Proactive Technology

Comprised of intrusion prevention, proactive detection, and behavioral analysis.

#### Ransomware Module

Allows laptops outside of the network to be fully protected.

#### Comprehensive Reporting Provides Transparency

A wide range of detailed reports are provided monthly to ensure you have visibility of what is happening and that you are being constantly protected.

### Benefits of a Managed Anti-Virus

**Fully Managed Solution for the Same Price as Your Anti-Virus Software!**

We include enterprise class endpoint software, monitored 24/7 by Pro-Multis, and managed by a team of technical experts that will provide you with regular reports to ensure you can see that the devices in your business are protected at all times!

#### Reduce Operating Costs

A security incident can stop you from being 100% productive at work. This costs your company a lot of money in lost productivity and in opportunity costs. A virus can hit many machines and take weeks to eradicate. Removing this risk will save you money.

#### Protect Your Company's Critical Assets and Information

Proactive technologies ensure an additional protection layer against all types of unknown malware, targeted attacks, and Internet threats.

#### A Flexible Security Solution

Our advanced security features offer the appropriate security for any size of company and network.

#### Comprehensive Reporting

No longer will you be unsure of how well you are protected. We will provide you with reports monthly that let you know that you are safe!

#### Total Peace of Mind

Buying an Anti-Virus solution, installing it, and then relying on everyone to keep it updated is a worry. Now you can rest assured that all your servers, PCs, and laptops are always protected and that there is a group of dedicated experts taking care of it for you 24/7.

*“Almost 50% of SMBs shut down external network access during serious external attacks; for many SMBs, this can cause crippling revenue loss.”*

*- Gartner*

## Threats facing SMBs today:

- **Ransomware**
- **Network Viruses**
- **Spyware**
- **Data Theft**
- **Phishing Attacks**
- **Email Spam and Malware**
- **Unpatched Devices**

*95% of small and midsize businesses have an anti-virus installed, but 74% still experienced attacks last year!*

## Why our clients choose our Managed Anti-Virus

### Stand-alone Anti-Virus Software:

- Provides a point solution to specific issues.
- Requires manual monitoring and maintenance to remain current and effective.
- Relies on end-user decisions for operation.
- Does not provide consistent version control across desktops.
- Does not provide centralized management.

### Managed Anti-Virus:

- Provides proactive and comprehensive security, monitoring and management.
- Centralizes the deployment and updating of software to ensure coverage and consistency.
- Automates management processes to avoid errors and reduce costs.
- Leverages expert IT skills.

| Features   | Standard Anti-Virus    | Managed Anti-Virus                    |
