

SUPPLEMENTAL IT SERVICES

Why our clients choose our Augmented IT Services

Flexible and Customized solutions allow you to select and combine only the services that meet the specific needs of your team either in a single office or across multiple locations.

Our Network Operations Center is available to assist your team with support needs, delivering support remotely for quicker mean time to resolution.

Control Your IT Costs by increasing efficiency with enhanced proactive network insight and the ability to be alerted to potential issues before they occur and utilizing automation on routine daily activities.

CIO Level Information delivered monthly on any of the network areas you require, provides deeper ongoing insight and reporting.

Your technology and support need to be as flexible as your IT Team, so we developed our Supplemental Services support program. The supplemental program allows you to customize your support and service needs directly related to your critical business services, internal expectations, and end user needs, all at a cost-effective price.
